

LEENA TIWARI

+91-90273 32385 | Greater Noida | [LinkedIn](#) | [GitHub](#) | [LeetCode](#)

SUMMARY

B.Tech CSE (AI/ML) student at Galgotias University with strong foundations in software development, data structures, and full-stack engineering. Proficient in Python, Java, JavaScript, and React.js with hands-on experience building real-world applications. Active competitive programmer on LeetCode (250+ problems solved). Passionate about building scalable, clean software and eager to contribute to product engineering teams through an internship or entrylevel SDE role.

EDUCATION

Galgotias University, Greater Noida

B.Tech CSE (AI/ML) | CGPA: 8.38 / 10.0

2023 – 2027

Saraf Public School

CBSE Senior Secondary: 86.5% | Secondary: 94.8%

2023

TECHNICAL SKILLS

Languages:	Python, Java, JavaScript, C, SQL, HTML5, CSS3
Frameworks:	React.js, Flask, Node.js, Express.js, REST API, JWT Auth
Databases/Cloud:	MySQL, SQLite, Vercel, Render
Tools:	Git, GitHub, Postman, Jupyter Notebook, Linux
Concepts:	OOP, DSA, DBMS, System Design, CI/CD, Agile

PROJECTS

StartupIQ — AI Startup Idea Validation Platform

Jan 2025 – Present

Python (Flask), React.js, SQLite, JWT, Anthropic LLM APIs, Vercel, Render

- Built a full-stack AI platform that generates market, competitor, and monetization reports via LLM APIs; reduced manual research time by ~70%.
- Engineered prompt pipelines for structured JSON output (SWOT, pitch, MVP planning); deployed with sub-200ms avg API response time.
- Secured backend with JWT authentication on Flask + SQLite; deployed frontend on Vercel and backend on Render with zero-downtime CI/CD.

DevConnect — Full-Stack Developer Networking App

Nov 2024 – Jan 2025

React.js, Node.js, Express.js, MySQL

- Developed a portfolio networking platform with user profiles, project showcases, and a follow system using component-based React.js frontend.
- Optimized 5+ MySQL queries with indexed lookups, cutting avg query execution time by 35%; implemented 10+ RESTful API endpoints (MVC architecture).

EXPERIENCE

Smart India Hackathon (SIH) 2024

2024

- Built and presented a full-stack government software solution with a 6-member team within a 36-hour sprint before an expert panel of judges.

Virtual Job Simulations — Accenture & Deloitte

2024

- Completed industry-equivalent tasks in Data Analytics & Visualization (Accenture) and Technology consulting workflows (Deloitte).

CERTIFICATIONS

- Data Structures using Python — Udemy (2025)
- Artificial Intelligence Fundamentals — Infosys Springboard (2024)
- Technology Job Simulation — Deloitte | Data Analytics & Visualization — Accenture

ACHIEVEMENTS

- Solved **250+ problems on LeetCode** — Arrays, Trees, DP, Graphs; top 30% contest ranking.
- CGPA **8.38/10.0** in B.Tech CSE (AI/ML) | CBSE Secondary: **94.8%**.
